

FRIENDS OF SHERWOOD ISLAND protest the probable **REDUCTION** in services to the public including fewer Life Guards, and management of the Park including monitoring of the public's safety.

It is unreasonable to reduce services to those using the park and especially those who are now being charged a **HIGHER** fee during seasonal use.

Can it be pennywise and **POUND** foolish to risk public safety by diminishing the staff and services during the busiest season when paying visitation includes nearly half a million in our gateway park alone!

Risking the Public's safety seems like a senseless **GAMBLE** with so many people using **OUR PARKS**2 million in cuts is **NOT** worth Public safety and Protection.

Thank You

Louis D. Pietig
